

AROS DISPOSABLE VASCULAR CLIP STERILIZED ARTERY LARGE TKL – 1

Micro vascular Clamps are specially designed for clamping the Arteries during CABG procedures.

There have been instances where Arteries have been damaged due to clamping of Arteries with micro vascular clamps which do not provide the required pressure and create trauma on fine Arteries resulting into lots of complications and tension.

These specially designed yellow micro vascular clamps are Aromatic and provide optimum pressure to the arteries, hence provides surgeon better control over the CABG procedure.

These micro vascular clamps are known as

“The clamping system of Tomorrow.....Today.
